Our city marshal ought to give bond and be recognized by the citizens as such, or resign. A marshal with a bond and the proper recognition of the citizens and he should be had if he has to be had. Our town needs a mean marshal—one that knows nobody and one that will shoot rather than be bull-dozed. The entire revenue of the town ought to be expended on a good marshal for one year at least, and then our peaceful citizens will not be afraid to poke their heads out of their doors at night.

When one man drops the "bat" here, it never gets cold, but some one always grabs it. Mike Thornton is one of the last that swung it to the breeze, and while swinging it pretty lively one night. Will Taylor and Sam Turley, cold, knocked him off the pavement in front of Speth's bakery. Mike went home and got his little cannon and returned and fired into the group, and missed his assaults and shot Frank Speth in the arm. The ball entered at the elbow and ran up between the bones, and cannot be found. The wound is a serious one, and will no doubt render Speth a permanent cripple.

BILLY GOODLER killed a meander-up-the-creek yesterday, which measured 6 feet from tip to tip of its wings. He or she (as the case may be), stood 4 feet 8 inches in his or her stocking feet, and closely resembled a newspaper man occupying a stand-up seat at a densely crowded Opera Festival. For his or her name and family pedigree, call on Billy.

We interviewed the ghosts last night, but "John" was on his good behavior. He merely scratched a little on the head-board of a bed, and thumped to the tune of Dixie, in low tones, and left.

The Cincinnati Democrats have nominated Thos. J. Stephens for Mayor.

GEN. PHIL. COOK and ex-Congressman McIntyre are the newest candidates for Governor of Georgia.

A GRANITE monument is to be erected at Andersonville, Ga., in memory of the Federal soldiers who are buried there.

Two Eastern Postmasters were arrested for robbing the mails. Civil Service Reform does not reform Postmasters.

RAILROADS entering at Cincinnati have all the freight they can carry. This is evidence of a healthy state of trade.

GENTLE Spring is a big thing in Massachusetts. The ice up there this month is fourteen and one-half inches thick.

It is hoped that winter will not land in the lap of summer, skipping spring altogether, as it has done for several years.

THE President announces that he will remain in Washington until after the reception to ex-President Diaz, and party, of Mexico.

ONE hog in every one hundred and seventy-two killed in this country within the past ten years was afflicted with strichina.

THE C. & O. road is having 300 refrigerator cars built, at a cost of \$1,000 each, for the transportation of fish, oysters, fruits and other perishable goods.

SECRETARY FOLGER is reported to be in a serious condition physically. He left Washington last Friday and neither of the Assistant Secretaries know where he is. He is thought to be at sea.

GUITARET's skeleton is in the Army Museum, in the building where Mr. Lincoln was assassinated. The skull ought to be appropriated as a grand United States chucklebox for the benefit of Congress.

In diplomatic circles at Washington it is intimated that the British Government will ask the United States Government to prevent the hatching of plots in this country against the peace of England.

THE Wisconsin farmer who stored ten barrels of kerosene in a barn with a hundred tons of hay, and went in with a lantern to see that all was safe, produced the usual results. He will never do it again.

It is estimated by competent authorities that least 200,000 barrels of whiskey will be exported to Bermuda to avoid the immediate payment of the tax now due. It can go abroad free, and returning on the same vessel remain in custom warehouses for a year before the tax is collected.

THE cold ashes of the burned-out independent movement in Georgia are being carefully raked in the hope of finding an ember not entirely extinguished, but is susceptible of being blown into a flame for the gubernatorial campaign.

A NEW railroad, now being built in North Carolina, twelve miles long is to be owned and operated altogether by colored men. This is a foible sign that the negro race is emerging from the dark cloud of ignorance in which it has always been shrouded.

BILL DEVORE, of Madison county, has an old musket which contains the lead he put in at the beginning of the war with Mexico. This very innocent and unsuspecting weapon would be a picnic for small boys to "play Jesse James" with.

A SNAKE was frozen in a solid block of ice that was cut recently from a mill-pond in Roslyn, Long Island. On being thawed out and warmed it was found to be alive. Here in Kentucky the snakes keep off the ice and make themselves comfortable in old boots.

THE friends of Neal and Craft at Ashland and Catlettsburg, claim to have found a clue to the tragedy which will establish the innocence of the accused prisoners. They claim to have found one of the two colored men who went to Virginia the morning of the murder, and that he has a revelation to make.

WITH several new railroads in prospect of construction, and the blugrass tobacco being the leader on the market, and it's cultivation having a tendency towards being the staple product, Paris will stand a small show of becoming to Kentucky what Richmond is to Virginia, in less than twenty years.

THE Mt. Sterling Sentinel announces Judge Thos. F. Hargis a candidate for re-election as judge of the Court of Appeals, and says "there is a general feeling with the profession throughout the State that he should be re-chosen." So far as we are able to learn, the bar of Paris are almost unanimously in favor of his re-election, and that the judge has a stronger following in Bourbon than he ever had.

JEFF. M. VIMONT, Adm'r.

## ATTENTION, HORSEMEN!

We call the attention of the farmers and breeders of horse stock, that I breed at my place, horses for beauty and symmetry as well as for trotting purposes. If a careful inspection is due to the sire and offspring of any horse, I would then most respectfully call attention to Caliban and his offspring—some ten or twelve of which can now be seen at my stable. Caliban will be permitted to serve a limited number of mares the coming season, sired by first-class men, (no others need apply) at \$25 to insure.

Caliban has a record of 2:34, and in the opinion of such horsemen as Dr. L. Herr, he could have trotted as well or better than 2:30 on the day which he has record. Two of Caliban's yearling colts showed better than a four minute gait on my indifferent track last spring.

I will call the attention to the fact that Caliban is such a fine specimen of the cross, has produced some of our most noted horses. I breed for speed as well as for endurance, high horses, high style and range.

Caliban is the sire of Cyclone and Quicker, both with records better than 2:27.

## SCHOOL FOR BOYS

and YOUNG MEN.

The next session of the school of W. H. Lockhart will commence Monday, September 11th 1882, in the building formerly occupied by Miss Maria Tipton. This is one of the best locations in Paris, quiet and retired, good play ground attached. Terms made known on application.

## Fire Proof Wire Fence.

I am building wire-fencing for the K. O. R. road. The same can be seen on the Mayville branch extending from the Jacktown pike through Will Taylor's place, near Paris, also on the railroad in Millersburg. The plan is entirely new. Be glad to accommodate all who desire wire fencing. It will pay all who are interested in such improvements to see and consider the merit of the fence.

Respectfully,  
W. C. GHOLSON.
